

Wright County Health Improvement Plan 2023

Date Revised: 02/15/2023, 3/15/23

The Wright County HIP was developed following the CHNA summary review. The plan was developed from feedback from the Wright County Transitions of Care committee, community members, ISH Clarion foundation board, ISH Clarion Hospital board, ISH Belmond foundation board, Wright County Public Health, Wright County Board of Health, and ISH Belmond Hospital board. The priorities were developed following feedback from the multiple avenues where the CHNA was shared. The strategies and goals were identified from a sub-group of the TOC committee. Data was collected from the county wide survey using paper and digital reach. This team used the CHNA and additional resources to base this determination. The resources they utilized included; CDC statistics, County Health Rankings and Roadmaps, Wright County Health Equity Report Card, US Census, Federal Financial Institution Examination Council Health Indicators Warehouse, Behavior Risk Factor Surveillance Systems, HRSAQ-area Health Resource File, American Community Survey, and National Center for Chronic Disease Prevention and Health Promotion. The responsible parties have been identified for a portion of the priorities while some of the goals and action items do not have a party yet identified and will evolve into a group or program as time progresses. The communication plan for the CHIP for Wright County includes sharing at the following meetings in April of 2023: ISH Clarion board, ISH Belmond board, Wright County TOC committee, Wright County Public Health, Wright County Board of Health, the Wright County website, and ISH website.

Topic 1

Mental Health in Wright County

Mental Health in Wright County

Topic Goal #1

Promote Mental Health Awareness and Support through access and services to the constituents of Wright County.

Alignment with National Plans

Healthy People 2030

Powered by Cognito Forms

Alignment with State/Other Plans

National Alliance on Mental Health -Iowa

Iowa Health Improvement Plan (2017-2021)

Mental Health Awareness & Support in Wright County

Objective 1.1

Increase access to mental health services for Wright County residents who are: on Medicare, students, Latino, or underinsured.

Develop a process of partnering with ISH, Wright County Public Health (WCPH) and School Districts to increase mental health resources, making them readily available for students and parent/guardians with special emphasis on those who are Latino or under insured.

Promote Mental Health awareness and provide education with special emphasis on Medicare recipients, those who are under-insured and the Latino population. To do this, we will work with community groups such as: churches, First Responders, law enforcement Wright County Health department, Iowa Specialty Hospitals and Clinics, and schools

Metric 1.1a: Decrease % of Wright County adults aged 18 and older who feel they receive insufficient social and emotional support.

Metric 1.1b: Increase access to mental health services in the school districts of Wright County.

Baseline Year	Baseline Value	Target Year	Target Value
Metric 1.1a 2021	24.7%	2026	5% decrease
Metric 1.1b2021	35 students/1SD	2026	25% increase

Data Source and Location

TOPIC #4**Access to Quality Health Services**

Access to Quality Health Services

Topic Goal #4

Promoting awareness, creating support, and identifying opportunities leading to improved access to Quality Health Care Services.

Alignment with National Plans

Healthy People 2030

Alignment with State/Other Plans

Healthy Iowans Plan

Objective 4.1Access to Quality Healthcare

The community will work together to identify existing resources supporting home health services, as well as ensuring services are available for home health, chronic condition management, and elderly care.

Metric: Decrease the ratio of Wright County residents to primary care providers, thus increasing the access of care.

Baseline Year	Baseline Value	Target Year	Target Value
2021	2540:1	2026	20% decrease in ratio
